NOTES TO THE FINANCIAL STATEMENT FOR THE YEAR ENDED MARCH 31, 2015

Subsequently, as on May 21, 2009 the Company was registered as a Non-Banking Financial Company without accepting public deposits, as defined under Section 45 IA of the Reserve Bank of India Act, 1934. (Refer Note No. 25)

2. Significant Accounting Policies

a Basis of Preparation of Financial Statement

The financial statements have been prepared and presented under the historical cost convention on the accrual basis of accounting. They are in confirmity with the accounting principles generally accepted in India ('GAAP'), and comply with the Accounting Standards notified by the Companies (Accounting Standards) Rules, 2006, specified under Section 133 of the Companies Act, 2013 (the "Act") read with Rule 7 of the Companies (Accounts) Rules, 2014.

Circular on revised regulatory framework for multiple NBFC vide DNBR (PD)CC. No. 002/03.10.001/2014-15 dated November 10, 2014.

b Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are

Revenue Recognition

i) Sales & Purchase:

Sale & Purchase of Government Securities are recognised on the deal date.

ii) Dividend Income:

Dividend income is recognised when the right to receive payment is established.

iii) Interest Income:

Interest income is recognised as it accrues on a time proportion basis taking into account the amount outstanding and the rate applicable except in the case of non performing assets ('NPAs') where it is recognised, upon realisation.

iv) Income from Investments :

Profit earned from sale of securities is recognised on trade date basis. The cost of securities is computed on weighted average basis.

l Investments

Investments are classified into Current Investments and Non-Current (Long-term) Investments. Current investments are valued, scrip wise, at cost or fair value, whichever is lower. Non-Current (Long-term) Investments are valued at cost. Provision for diminution is made scrip wise to recognise a decline, other than temporary.

Inventories

Inventories are valued, scrip wise, at cost on weighted average basis or fair value, whichever is lower.

E Earnings per share

The basic earnings per share is computed by dividing the net profit / loss attributable to the equity shareholders for the period by the weighted average number of equity shares outstanding during the reporting period. Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares and dilutive potential equity shares outstanding during the year. In computing dilutive earnings per share, only potential equity shares that are dilutive and that reduce profit / loss per share are included.

g Provision for Current Tax and Deferred Tax

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonably / virtually certain (as the case may be) to be realised.

h Provision, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be outflow of resources. Contingent Liabilities are not recognised but are disclosed in the notes. Contingent Assets are neither recognised nor disclosed in the financial statements.
